PROFESSIONAL SUMMARY

Proactive and self-taught Full-Stack Web Developer with hands-on experience building, debugging, and optimizing scalable web applications. Proven ability to integrate AI solutions, develop full-stack e-commerce platforms, and build business management systems. Seeking a Junior Developer role to contribute programming skills to operational challenges, learn best practices in system architecture, and grow as part of a collaborative team.

TECHNICAL SKILLS

Programming Languages: JavaScript, TypeScript, Python, PHP, HTML5, CSS3, SQL

Frontend Frameworks & Libraries: React.js, React Native, Next.js, Vite, Tailwind CSS

Backend Frameworks: Laravel (Blade), Django, Node.js

Databases: PostgreSQL, MySQL, MongoDB, Supabase

AI & Emerging Tech: Prompt Engineering, LLM API Integration

Tools & Cloud Platforms: AWS, Cloudflare, Render, GitHub, Git, SendGrid, REST APIs, Xendit API

PROFESSIONAL EXPERIENCE

Discover Group of Travel Services Inc. | Quezon City, Philippines

Full Stack Web Developer

September 2025 – May 2026

- **Travel Booking E-Commerce Platform:** Developed a comprehensive travel booking system and admin dashboard using PHP, Laravel, and MySQL. Implemented instant form validations, accessibility standards, and fast load times.
- **AI Integrations:** Integrated LLM APIs to build an AI-powered itinerary generator paired with a real-time pricing engine and route optimizer. Developed "Dayo," an AI chatbot handling natural language customer inquiries by dynamically querying the live MySQL database.
- **Payment & Security:** Integrated Xendit API to process GCash, GrabPay, PayMaya, and bank payments. Secured the platform and chatbot using Cloudflare Turnstile bot verification.
- **CRM Application Development:** Built a custom CRM system to track customer communications, manage flexible payment installments (up to 10 splits), and facilitate secure document uploads using Cloudflare cloud storage.
- **ERP Web Application:** Engineered a 7-module business management system (covering employee records, department organization, and asset tracking) utilizing React, TypeScript, and TailwindCSS for the frontend, and Python/Django for the backend.
- **Quality Assurance:** Conducted rigorous manual testing, implemented error logging, and wrote comprehensive documentation for post-launch maintenance.

Freelance Web Developer

September 2023 – August 2024

- **Web Development:** Delivered custom, responsive web solutions and academic projects leveraging HTML, CSS, JavaScript, and PHP.
- **Technical Consultation:** Provided detailed code walkthroughs, mentorship, and technical support to facilitate client presentations and resolve complex development challenges.
- **Optimization:** Debugged web applications to improve performance and user experience based on diverse client specifications.

EDUCATION

Bulacan State University - Bustos Campus | Bustos, Bulacan

Bachelor of Industrial Technology, Major in Computer Technology

August 2019 – July 2025

Balucuc High School

Computer System Servicing Strand

June 2014 – March 2019

AWARDS & ADDITIONAL INFORMATION

Awards: 2nd Place - Web Developer Skills Olympics (2023)

Languages: English, Tagalog
